

# Emergency Arbitrator Proceedings: Emerging Trends and Lessons Learned

New York – 22 November (7:30 – 8:45 am)

## Venue

**Fordham University School of Law**  
150 West 62nd Street, New York, NY 10023

## Description

Since entering into force in 2012, ICC emergency arbitrator proceedings have become an important tool in the dispute resolution process. Despite the increasing frequency with which these proceedings are utilized, many practitioners have yet to have the benefit of first-hand experience.

The recently released *ICC Commission Report on Emergency Arbitrator Proceedings* examines the first 80 EA cases under the ICC Rules, identifying trends and offering guidance based on the collective experience with these proceedings thus far. Join us for a discussion over breakfast to learn about the key takeaways from the report and hear from experienced practitioners as they share practical advice and expert insight on how to effectively manage emergency arbitrator proceedings as both counsel and arbitrator under the ICC Rules.

This seminar immediately precedes the opening of the Fordham Conference on International Arbitration and Mediation during [New York Arbitration Week](#).
